PERSONAL STATEMENT

I am a recent graduate from Wintec with a Bachelor of Applied Information Technology looking to secure a position as a front-end developer. As someone who enjoys UI design and programming, I possess both creativity and technical skill. Therefore, I am looking for work that will allow me to utilise and grow these talents. Through my degree, I have gained practical experience using the agile methodology including stand up meetings.

TECHNOLOGIES

Javascript	Github
React.js	Adobe Xd
HTML5	Photoshop
CSS	Illustrator

HOBBIES

Music production
Soccer
Badminton
Dungeons & Dragons

ACADEMIC ACHIEVEMENTS

1. Bachelor of Applied Information Technology
2. NCEA Level 3 with honours
3. High distinction in Earth and Space Science at NCEA level 3

SKILLS

Responsive Design
I develop with a mobile first mentaliy and test in all major browsers.

UI Design
I can quickly generate and iterate on ideas. My attention to detail means I can accurately translate designs to code.

QUALITIES

Empathetic
Having an understanding of another's viewpoint is the foundation of effective communication.

Honest
I will always be honest and communicate what I do and don't know.

Enthusiastic
My interest in web development means I'm always looking to improve my skills.

Receptive
Taking and Internalising criticism is essential to improving.
